

March 22, 1973

back for recount on that but this was originally given us with that amendment.

SENATOR WHITNEY: Thank you.

PRESIDENT: Is there any further discussion of the committee amendments?

SENATOR KENNEDY: If there would not be any further discussions I would move that we adopt the committee amendments on LB 235.

PRESIDENT: Alright, now, the motion is shall we adopt the committee amendments on LB 235? Do you understand the question? All those in favor of the committee amendments please say aye, those opposed say no. So ordered then, the committee amendments are adopted. Now, we have 235 with the committee amendments adopted, we are going to go back to 185. Are you all through discussing LB 185, if you are we are going to allow Senator Chambers to close on his bill, if he has any closing, excuse me, I'm sorry, that's not right, we are back to Senator Goodrich for closing on his motion to indefinitely postpone.

SENATOR GOODRICH: Okay, Mr. Chairman, members of the legislature,

PRESIDENT: Senator Goodrich is closing on his motion to indefinitely postpone LB 185.

SENATOR GOODRICH: First I would move the adoption of the motion to kill this bill, LB 185, for Senator Chambers benefit, he mentioned the article that was in the paper relative to my owing some tax money, I assure Senator Chambers that that bill is paid and it was paid with a healthy penalty and interest, so I didn't get by Scot free either. As far as what Senator Schmit is proposing for example, revolution of the names of those people that were getting any kind of Government aid or assistance of any kind, Senator Schmit we tried to do that very thing last summer in the interim study committee of the health committee and the welfare department informs us that all of these names and all of the cases and considerable amount of information relative to these cases, are strictly confidential, we can't even as Senators of Nebraska, we cannot get to that information. Now, Senator Marvel's comments prove my original statement that we are about one year premature on the introduction of either one of these bills. I would suggest that we wait and let the welfare department adopt the new formula first, we would also by that time know what the Federal Government is going to do relative to the ABD portion and the actual withholding or giving of Federal participation in any of these programs that deal with welfare. Now, to give you an idea of just where we rank, the state of Nebraska ranks right now, we, relative to the surrounding states, these are the states that border Nebraska, right now we are fifth among seven, with Senator Chambers bill, we would be first on the list. Senator Chambers bill would establish standard of needs at \$307.00 per mother and three children, Kansas says \$301.00, South Dakota \$250.00, Wyoming \$227.00, Colorado \$200.00, Iowa \$175.00 and Missouri \$130.00. I don't think myself that we need to be number 1 in this particular area. Now getting back to the fiscal note on your books, relative to 185, LB 185, the fiscal note is absolutely wrong, the whole fifteen million dollars will come out of the general fund, until the welfare department adopts a new formula which I'm suggesting we wait until they do first. Now the two bills that we are dealing with, 185 and 235, 185 says a hundred percent of needs, whatever the standards of needs is, this is this 307 figure, would go from 192 up to 307, Senator Schmit's bill says eighty percent of standard of needs or eighty percent of 307, from 192 up to eighty percent or 245, now the alternate proposal that I would suggest
